## Imitation Ostrich Feathers.

From the Scientific American

Ostrich feathers, which, as the coveted court plumes of fashion have always been in demand at high prices, are not only getting more plentiful by the domestication of the bird, but imitations of all kinds have sprung up—those of spun glass, sold at 25c to 50c, instead of 10c to 20c; those made of silk, etc. It has heretofore been the custom to work up all the odds and ends of ostrich feathers into plumes, and even to make use of the feathers. But it was left for the ingenuity of the Yankee to get up an imitation, the component parts of which are silk on a raton or celluloid quill. This "sham" could be easily passed off on the ladies as genuine, and almost defies detection by others than experts.

## A Plain Declaration From the Women Suffragists.

The declaration of the suffrage women, made in a National Convention at Indianapolis, a few days ago, under the direction of Susan B. Anthony, is as follows: "In this year of Presidential nominations, of political campaigns, we announce our determination to support no party, by whatever name called, unless such party shall in its platform first emphatically endorse and support our demand for a recognition of the exact and permanent political equality of woman with man; and we hereby declare that we shall hold any party as an enemy that does not make woman suffrage a permanent and immediate demand in its platform of principles."

Mrs. Sneathen of Kent county, Mich., wants a divorce from Mr. Sneathen. She doesn't set up in her complaint the usual charges of ill-treatment, drunkenness, failure to provide, or incompatibility of disposition, but simply that the marriage was a purely business contract, and that Mr. Sneathen had failed to comply with his part of it, he having agreed to give her forty acres of land in return for her becoming Mrs. Sneathen, and then failed to do so.

The daughter of a Shrewsbury (England) farmer went to a pantry to get a loaf of bread that had been baked eight days before. As she carried it she was considerably alarmed, as most young women would be, to see first one mouse and then another leap from the loaf. On cutting it open, a cozy nest was found in the centre, and in the nest were fourteen little mice.

The cost of cremation in Le Moyne's establishment at Philadelphia is \$43.

DANGEROUS SHANTIES.

The spirit of prophecy rested upon the pencils which penned the recent warnings in the *Gazette* and *Journal* in regard to the fire nests around town. Tramps have three or four rendezvous about town where they drink, smoke and lounge about days and sleep nights. Any moment is liable to see one of these places in flames. They should be torn down summarily if the authorities cannot have them removed. If a mob tears them down the town will have to pay for them, so no one will be looser. It had better be done at once. The town can afford to stand the loss.

EDITORIAL NOTES.

A German scientist states that the human heart increases two-thirds between the age of fifteen and twenty. After that period its growth is very slight until the fiftieth year, when it begins to diminish in size. He further says that the hearts of men are much larger than those of women. Thus it appears that the conclusions of science correspond with the teachings of experience in regard to what is called the "heart," as an organ of feeling and sentiment.

That red hot Democratic journal, the *San Francisco Call*, thinks Tilden will have "a hard job" to get the Democratic nomination. The *Call* hazards the computation that Tilden has 168 delegates, and that there are 214 anti-Tilden delegates elected. A two-thirds vote is required to nominate, and the whole number of delegates is 738. Tilden is far short of the 492 votes that are necessary to a choice.

There is considerable feeling among some of the parties interested at Pyramid against Reno. They say they have been badly treated and met with discouragement and embarrassments where they should have been encouraged. It will be a great mistake if Reno incurs the ill will of the men who are trying hard to develop our resources.

This is what the Republican National Convention of 1876 had to say of a third term: "Recognizing as conclusive the President's declaration that he is not a candidate for re-election, and with the sincerest gratitude for his services, we declare our unalterable opposition to the election of any President for a third term."

"On the 1st of May a new telegraphic rule went into operation in Switzerland. At the request of the sender, the message must be delivered open at the designated domicile, so that, in the absence of the person for whom it is intended, immediate attention may be given to the matter." This is an excellent idea and should be adopted in this country.

The great basin has not all the locusts in the world. An army of these has devastated the island of Elba, once the home of the exiled Napoleon.

After this advertisement in the *Nevada Monthly* will not be interspersed with reading pages.

The National Labor party's Convention will be held in Chicago on Wednesday next.

It will be pretty hot in Cincinnati by June 23d, when the Democratic Convention is to be held.

Do You Believe It?  
 That in this town there are scores of persons passing on their way to the mines, and that these persons are made miserable by indigestion, dyspepsia, sour and distended stomach, liver complaint, constipation, etc., when for 75 cents we will sell them Shiloh's Vitalizer, guaranteed to cure them. Sold by O'Brien & Shoemaker, Druggists, Reno, Nevada.

Not only does Shiloh's Vitalizer cure all the above ailments, but it also cures all the ailments of children's stomachs and so very cheap, that short dresses will become all the rage. Don't you see the point? Dear Mrs. J. J. dress goods.

 Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel.
